

## **Family Satisfaction Surveys Results FY 2012-2013**

### **Executive Summary**

Families of children and adults receiving services in all programs were given the opportunity to rate the services and supports they currently receive. We also asked families who are currently waiting for services or are waiting for adult programs but receiving services through another program to rate Intake/Waiting List case management. Surveys were sent to families in July 2013, of which 29% were returned. Families rated each question on a scale from 1 (not at all satisfied) to 5 (highly satisfied).

**The overall satisfaction index for FY 12-13 is 4.62/5.00.** This is the overall average for every answer we received. It represents a high level of satisfaction, on average, for all individuals served across Larimer County, and includes all service providers and all service types. This is a slight decrease from FY 11-12 (4.70). We are proud that families continue to show such a high level of satisfaction, and we will continue to work very hard to exceed their expectations and maintain their trust.
