

Family Satisfaction Surveys Results FY 2018-2019

Executive Summary

Families of children and adults receiving services in all programs were given the opportunity to rate the services and supports they currently receive. We also asked families who are currently waiting for services or are waiting for adult programs but receiving services through another program to rate Intake/Waiting List case management. Surveys were sent to families in July 2019, of which 19% were returned. Families rated each question on a scale from 1 (not at all satisfied) to 5 (highly satisfied).

The overall satisfaction index for FY 18-19 is 4.69/5.00. This is the overall average for every answer we received. It represents a high level of satisfaction, on average, for all individuals served across Larimer County, and includes all service providers and all service types. This is a slight increase from FY 16-17 (4.67). We are proud that families continue to show such a high level of satisfaction, and we will continue to work very hard to exceed their expectations and maintain their trust.

The following are common themes of the positive feedback we received from families:

- Appreciative of services and support provided
- Happy with support to go out into the community
- Satisfied with communication and follow-through
- Very grateful of Case Managers and Service Coordinators

The following are common themes of the suggestions and/or concerns made by families:

- Would like family member to have more assistance in building relationships
- Would like more information about community resources
- Would like more frequent communication/reminders
- Wish Early Intervention continued past age 3

An appropriate staff member will contact families that request to be contacted regarding their answers or comments on surveys. Additionally, families who have rated items on surveys 1 or 2 on the 1 to 5 scale are contacted if they have identified themselves on the survey. All comments are reviewed and if needed, follow up takes place.
