INDEPENDENT AUDITOR'S REPORT

Board of Directors
Foothills Gateway, Inc.

We have audited the accompanying financial statements of Foothills Gateway, Inc. (FGI), which comprise the statement of financial position as of June 30, 2020, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Foothills Gateway, Inc. as of June 30, 2020, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited FGI's 2019 financial statements, and our report dated October 14, 2019, expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2019, is consistent, in all material respects, with the audited financial statements from which it has been derived.

NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE A – NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This description of Foothills Gateway, Inc.'s (FGI) nature of activities and summary of significant accounting policies is presented to assist in understanding FGI's financial statements.

1. *Summary of Business Activities*

Foothills Gateway, Inc., a Colorado nonprofit corporation, was incorporated under the laws of the State of Colorado in 1968 for the purpose of providing a Community Centered Board to coordinate programs through interagency cooperation and local agencies to provide services to persons with developmental disabilities in Larimer County. FGI's revenue comes primarily from the State of Colorado and Larimer County for services provided.

2. *Description of Services Provided*

The major program services or supports and functional activities directly provided or purchased by FGI are:

Program Services or Supports

Residential refers to residential services as specified in the eligible person's Individualized Plan (IP). Included are a number of different types of residential settings, which provide an array of training, learning, experiential and support activities provided in residential living alternatives designed to meet individual needs.

Adult Day includes a number of different type of services and supports which provide opportunities for individuals to experience and actively participate in valued roles in the community as specified in the IP. These services and supports enable individuals to access and participate in typical community activities such as work, recreation, and senior citizen activities. Included in this program are services for persons who are responsible for their own living arrangements in the community.

Supported Employment is individualized (one on one) community employment and small group or enclave employment services provided to adults with Intellectual and Developmental Disabilities (IDD).

Respite House provides respite and supervision services for adults.

2. *Description of Services Provided (Continued)*

Program Services or Supports (Continued)

Transportation is “Home to Day Program transportation” services relevant to an individual’s work schedule as specified in the IP. For these purposes “work schedule” is defined broadly to include adult and retirement activities such as education, training, community integration and employment

Children and Family Services are for children from birth through age two which offer infants and toddlers and their families services and supports to enhance child development in the areas of cognition, speech, communication, physical, motor, vision, hearing, social-emotional development, and self-help skills; parent-child or family interaction; and early identification, screening and assessment services. In addition, this program provides an array of supportive services to the person with a developmental disability and his/her family when the person remains within the family home, thereby preventing or delaying the need for out-of-home placement, which is unwanted by the person or the family. Services and supports to eligible children under the age of 18 years in order for the children to remain in or return to the family home (only the child’s income is considered in determining eligibility) are targeted to children having extensive support needs, which require constant line-of-sight supervision due to significantly challenging behaviors and/or coexisting medical conditions. Available services include personal assistance, household modification, specialized medical equipment and supplies, professional services, and community connection services.

Case Management is the determination of eligibility for services and supports, service and support coordination, and the monitoring of all services and supports delivered pursuant to the IP, and the evaluation of results identified in the IP.

Behavioral Health includes access to an onsite agency which provides behavioral health services; provides crisis services for individuals ages six and older using the START program model; and behavioral services.

Housing Choice Voucher Program enables participants to better afford housing in Larimer County by subsidizing their rent with federal funds through Section 8 (HUD) housing subsidies.

Organized Health Care Delivery System is for services provided by third-party vendors that are funded through Medicaid Waivers. The third-party vendors are not approved purchase of service agencies.

NOTE A – NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. *Description of Services Provided (Continued)*

Supporting Services

Management and General includes those activities necessary for planning, coordination and overall direction of the organization, financial administration, general board activities and other related activities indispensable to FGI's corporate existence.

Fundraising represents FGI's costs to develop and maintain a fundraising effort that generates awareness and increases support for persons with disabilities.

3. *Basis of Accounting*

Financial statements of FGI have been prepared on the accrual basis, whereby revenue is recorded when services are performed and expenses are recognized when incurred.

4. *Use of Estimates*

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues, support and expenses during the reporting period. Actual results could differ from those estimates.

5. *Subsequent Events*

FGI has evaluated events and transactions occurring subsequent to the end of the fiscal year for potential recognition or disclosure through September 14, 2020, the date on which the financial statements were issued. FGI did not identify any events or transactions that would have a material impact on the financial statements.

6. *Cash and Cash Equivalents*

FGI considers cash to be cash on hand and cash on deposit, subject to immediate withdrawal, and cash equivalents to be certificates of deposit with an original maturity of three months or less. FGI maintains some of its cash balances at financial institutions located in Fort Collins, Colorado, which at times, may exceed federally insured limits. FGI has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

Foothills Gateway, Inc.
NOTES TO FINANCIAL STATEMENTS

NOTE A – NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

7. *Accounts Receivable*

The majority of FGI's accounts receivable are due from the State of Colorado. Accounts receivable are due according to contractual terms and are stated at the amount management expects to collect from outstanding balances. FGI believes all receivables are collectible and that no allowance for doubtful accounts is necessary. FGI writes off accounts receivable to bad debt expense after reasonable collection efforts have been made. Payments subsequently received on such receivables, if any, are recorded as other revenue.

8. *Investments*

FGI records investments in equity and debt securities at fair value in the statement of financial position as determined by quoted market prices. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of financial position.

9. *Land, Building and Equipment*

Land, building and equipment are reported at cost for purchased assets with a cost of \$3,000 or more, and at estimated fair value, at date of receipt, for donated property. Depreciation is provided on the straight-line method over the following estimated useful lives:

	<u>Years</u>
Buildings and improvements	10–50
Program and administrative equipment	3–10

10. *Accounting for Contributions*

All contributions are considered to be without donor restrictions unless specifically restricted by the donor. Amounts received that are designated for future periods, or are restricted by the donor for specific purposes are reported as increases in net assets with donor restrictions. Unconditional promises to give, which do not state a due date, are presumed to be time-restricted by the donor until received and are reported as net assets with donor restrictions.

Foothills Gateway, Inc.
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

NOTE A – NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

10. *Accounting for Contributions (Continued)*

A donor restriction expires when a stipulated time restriction ends, when an unconditional promise with an implied time restriction is collected, or when a purpose restriction is accomplished. Upon expiration, net assets with donor restrictions are reclassified to net assets without donor restrictions and are reported in the statement of activities as net assets released from restrictions. Restricted contributions received in the same year in which the restrictions are met are recorded as increases in net assets without donor restrictions.

11. *In-Kind Contributions*

Contributions of property, materials and personal services are known as in-kind contributions and are recorded at estimated fair value at the date of receipt. The amount recorded for these contributions (other than contributions of land, building and equipment) is also included as program costs to properly reflect the total cost of the particular program.

12. *Income Taxes*

FGI is operated as a nonprofit organization exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. FGI recognizes tax liabilities when, despite FGI's belief that its tax return positions are supportable, FGI believes that certain positions may not be fully sustained upon review by tax authorities. Benefits from tax positions are measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon settlement. FGI has concluded there is no tax liability or benefit required to be recorded as of June 30, 2020. FGI is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. FGI believes it is no longer subject to income tax examinations for the years prior to the year ended June 30, 2017.

13. *Functional Allocation of Expenses*

The costs of supporting various programs and other activities have been summarized on a functional basis in the statement of activities. The statement of functional expenses presents the natural classification detail of expenses by function. Certain costs have been allocated to program and management and general based on estimates of time and effort, square footage of the office and other methods.

NOTE A – NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

14. *Fair Value Measurements*

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. A fair value hierarchy has been established under generally accepted accounting principles, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value:

Level 1 – Quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and mutual funds that are traded in an active exchange market.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. This category generally includes certain U.S. Government agency debt securities and corporate debt securities. FGI's Level 2 securities are primarily valued using quoted market prices for similar instruments and nonbinding market prices that are corroborated by observable market data.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the asset or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial asset, including estimates of timing, amount of expected future cash flows, and the credit standing of the issuer. In some cases, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial asset. The disclosed fair values do not reflect any premium or discount that could result from offering for sale at one time an entire holding of a particular financial asset. Potential taxes and other expenses that would be incurred in an actual sale or settlement are not reflected in amounts disclosed.

15. *Prior Year Summarized Information and Reclassifications*

The financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with FGI's financial statements for the year ended June 30, 2019, from which the summarized information was derived. Certain financial information as of and for the year ended June 30, 2019 has been reclassified to conform with the presentation for the current year.

16. *Recent Accounting Pronouncements*

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. The amendments in this update clarify the guidance regarding the classification of operating, investing and financing activities for certain types of cash receipts and payments. The amendments in this update are effective for the annual periods, and the interim periods within those years, beginning after December 15, 2018, and should be applied using a retrospective transition method to each period presented. Early adoption is permitted. The Center adopted this ASU during the year ended June 30, 2020 and there was no effect.

In November 2016, the FASB issued ASU No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. The amendments in this ASU require that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The ASU will be effective for fiscal years beginning after December 15, 2018. Earlier adoption is permitted. The changes in this ASU should generally be applied on a retrospective basis in the year that the ASU is first applied. The Center adopted this ASU during the year ended June 30, 2020 and there was no effect.

In June 2018, the FASB issued ASU No. 2018-08 *Not-for Profit Entities (Topic 958): Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*. The amendments in this ASU clarify and improve the scope and the accounting guidance for contributions received and contributions made. The ASU will be effective for all entities that have not issued or is a conduit bond obligor for securities that are traded, listed or quoted on an exchange or an over-the-counter market services as a resource recipient, for fiscal years beginning after December 15, 2018. The ASU will be

effective for all entities that have not issued or is a conduit bond obligor for securities that are traded, listed or quoted on an exchange or an over-the-counter market services as a resource provider, for fiscal years beginning after December 15, 2019. The Center implemented ASU 2018-08 where it is a resource recipient. The Center is in the process of evaluating the impact of this new guidance related to the Center serving as a resource provider.

In May 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)*, requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The updated standard will replace most existing revenue recognition guidance in generally accepted accounting principles in the United States of America (US GAAP) when it becomes effective and permits the use of either a full retrospective or retrospective with cumulative effect transition method. In August 2015, the FASB issued ASU 2015-14, which defers the effective date of ASU 2014-09 one year, making it effective for annual reporting periods beginning after December 15, 2018. In June 2020, the FASB issued ASU 2020-05, which allows certain entities the option to delay the adoption by one year, making it effective for annual reporting periods beginning after December 15, 2019. The Center has not yet selected a transition method and is currently evaluating the effect that the standard will have on the financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e. lessees and lessors). The most significant change for lessee is the requirement under the new guidance to recognize right-of-use assets and lease liabilities for all leases not considered short-term leases. Changes to the lessor accounting model include: (a) synchronizing key aspects of the model with the new revenue recognition guidance, such as basing whether a lease is similar to a sale or whether control of the underlying asset has transferred to the lessee and (b) prospectively eliminating the specialized accounting for leveraged leases. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases. The ASU will be effective for fiscal years beginning after December 15, 2019, with early adoption permitted. In November 2019, the FASB issued ASU 2019-10, which defers the effective date of ASU 2016-02 one year, making it effective for annual reporting periods beginning after December 15, 2020. In June 2020, the FASB issued ASU 2020-05, which allows certain entities the option to delay the adoption by one year, making it effective for annual reporting periods beginning after December 15, 2021. The Center is in the process of evaluating the impact of this new guidance.

NOTE J – FUNCTIONALIZED EXPENSES

The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated included salaries and benefits, telephone, depreciation and amortization, insurance, utilities, postage, storage and equipment lease, and miscellaneous, which are allocated on the basis of usage studies, square footage and other methods.

NOTE K – RELATED PARTY TRANSACTIONS

FGI receives a substantial amount of revenue from the State of Colorado. The amount of receivables FGI has from the State of Colorado is \$1,587,346, at June 30, 2020. These transactions are considered to be transactions with a related party by virtue of the significant management influence exercised by the State of Colorado through contract provisions.

NOTE L – RISKS AND UNCERTAINTIES

In March 2020, the World Health Organization declared coronavirus (COVID-19) a global pandemic. This contagious disease outbreak has adversely affected workforces, customers, economies, and financial markets globally. This outbreak could adversely affect FGI's ability to provide services, and reduce funding sources available. It is not possible for FGI to predict the duration or magnitude of the adverse results of the outbreak and its effects on the organization's activities or results of operations, financial condition, or liquidity, at this time.
