

FOOTHILLS GATEWAY, INC.

Resource Allocation Committee (RAC)-(State Supported Living Services)

PURPOSE:

- The purpose of the Resource Allocation Committee (RAC) is to provide an objective and consistent approach to the allocation of State Supported Living Services (SLS) funds.
- State SLS offers an individual the opportunity to select supports and services from an approved list of services.
- Information about all services and service rates is available to people enrolled in the program and families.
- Admission to the State SLS program does not guarantee any particular services or supports or resource amount and requires the individual to select services to meet his or her needs and prioritize needed services given available funding.
- The RAC meets once each month or arrives at decisions via email.

PROCEDURE:

- The RAC consists of Foothills Gateway Division of Case Management staff.
- Decisions are made by consensus. A majority of RAC members must be in agreement for decisions on allocations.
- The RAC is responsible for recruiting members and training new committee members as needed.
- When a RAC member is directly involved with an interdisciplinary team (IDT) or has a financial interest in the outcome of the decision, the member will abstain from voting.

The committee approves plans based on:

1. Criticality of Services:

- Health and safety Issues (meeting health and safety issues is the highest priority)
- Independent living issues
- Family stability

2. Individual Characteristics:

- Adaptive living skills
- Behavioral, psychiatric, legal issues
- Community safety skills
- Self-preservation skills

3. Availability of Outside Funds/Supports:

- Availability of generic services
- Family members
- Other natural supports
- Financial resources

- 4. Allowability of services under State SLS rules.**
- 5. Availability of SLS funding and contract limitations.**
- 6. Utilization of current resources (if currently enrolled in SLS).**

If an individual in service and/or guardian does not agree with a decision, they may request another review by contacting the Case Manager or follow the HCPF State funded program appeal process.
